Bal Bharti School, Rewa – 8.8/10 (CGPA)

PROFESSIONAL EXPERIENCE

IBM India Private Limited July 2019– Current

Full Stack Developer

Developing and maintaining web application and fixing internal security issues such as **SQL injection, Dom-Based XSS, CSS**, etc. due to which companies security might be at stake.

- **Skill Tracker – A Web application to keep track of expertise that employees have.**
 - Created a single page application (with the help of **Angular framework**) which keeps track of expertise of individual Full Stack Engineers.
 - Used **Spring Microservices technology** as middleware to connect to the back-end and retrieve information from **MySQL** database using **ORM** technique.
- **Rentastic — Created a renting web application in which user can rent into some predefined categories.**
 - Used **Angular Framework** to create a single page application where user can rent items from 3 categories (Furniture, Appliances, vehicle) for a limited period as per its convenience.
 - Used **Spring Microservices technology** as middleware to connect to the back-end and retrieve information from **MySQL** database using **ORM** technique.

ACADEMIC PROJECTS

Time Table Management

- A web Application with the use of **JavaScript, CSS and HTML**, uses a simple **Array of Objects** to store all the teachers with their skills they mastered and hence the user can allot one teacher for a particular slot and at the same slot timing that teacher will not be available for the other classes.

Real time Weather Extractor

- Used Google Firebase to implement email/password and Google based Sign Up and Sign In using **NodeJs** as the middleware which helps the user to login and extract the temperature of any city.
- Used **REST API** calls to extract weather details and stored user and weather data locally.

CERTIFICATIONS AND COURSES

Full Stack Developer – IBM July 2019

Undergone certified training programme for Full Stack Developer at IBM in Java under Brighter Blue industrial portal.

Java Certification – IBM July 2019

Undergone certified training programme for Core JAVA at IBM under Brighter Blue industrial portal.

TECHNICAL SKILLS

Keywords: Data Structures, HTML, CSS, JavaScript, Nodejs, Bootstrap, SQL, C, Java, REST, Google Firebase, Java Hibernate (ORM tool), MVC, Angular, Spring Boot, Microservices, Git (for version Controlling)

ACHIEVEMENTS and AWARDS

- Earned **AIR 3226** after successfully qualifying **GATE 2019** with Computer science exam where scored 47.67 out of 100.
